## 760

## 432

760: Cable clamp in natural PA66 T-20 +T125°C suitable to clamp cables with diameter between 3 and 10 mm.

• Fixing tightening the two plastic screws positioning the device on structures, thickness 0,8 - 2,5 mm, pre-arranged with holes diameter 6 mm with center distance 16,5 mm.

• **Cable clamp** in plastic material with male thread M10 x1.

432GH-: ring part of the cable clamp.

430--: part of cable clamp body with hole diameter 5,1 mm. Suitable to clamp cables with diameter between diameter 4,3 and 5,0 mm.

430/5-: part of cable clamp body with hole diameter 6,7 mm. Suitable to clamp cables with diameter between diameter 4,8 and 6,5 mm.

• Available colours:
T = transparent, in polycarbonate
B = white, in PA66
N = black, in PA66
